COLOR ACCURACY

Screen and print may present different shades than the actual swatches. Match to a physical swatch before committing a job. Swatches are **\$25 each**.

Special order. Finishes marked *special order* are not held in stock and add roughly two weeks. Everything else ships on standard lead time.

Custom powder coat. If none of the twenty-five are right, we will run your color. We need a **four-digit RAL number** — RAL 7016, RAL 9005, RAL 8019. We cannot work from a paint-brand name, a photo, or a color read off a screen. Minimum footage applies.
